WHO WE ARE

Established in 1974, Samaras Group has grown into one of Australia's largest privately owned multi-disciplinary heavy engineering and construction services providers with a solid reputation for innovation, service, quality and our on-going commitment to safety.

Quality and technology are key to our success, as well as our high calibre of experienced Engineers, Project Managers, Quality Control Personnel and Steel Fabrication Experts.

OUR VALUES

GROWTH

We will learn and evolve as a Team and as a Group. We are prepared to make bold moves and decisions to ensure sustainable growth.

COMMITTMENT

We will make every effort to assist our clients and supply partners to succeed in their respective missions.

PEOPLE

We will empower our people to maximise their potential and contribution. We will always behave in an ethical and principled manner.

Featured Project: Quay Quarter Tower (QQT)

OUR DIRECTORS

CHRIS SAMARAS

MANAGING DIRECTOR

Just shy of 20 years' experience within the steel industry, Chris holds formal qualifications in Construction Management and Economics, while also holding a Graduate Certificate in Business Administration and Certificate IV in WHS.

As Managing Director, Chris is responsible for overseeing Samaras' overall performance and providing strategic guidance to ensure long-term goals are achieved. Chris has led the Samaras Group through various property development project and also takes the lead in the groups vast real estate holdings and generating additional opportunities by leveraging his existing networks. Chris sits on a number of commercial and philanthropic boards including Master Builders SA and the Make a Difference foundation.

KOSTA KOUTSONAS

DIRECTOR | NEW BUSINESS & STRATEGY

Kosta is a well-rounded Executive with formal qualifications in civil & structural engineering, a Masters of Business Administration and is a Graduate of the Australian Institute of Company Directors.

He has a cross-range of experience in sales, operational management, marketing, and national/international business development. Kosta's career has taken him to over 40 countries where he has been able to form long lasting commercial and strategic relationships with governments and some of the world's largest organisations. Kosta's lead in the generation of the Groups' strategic plan has led to significant growth and resilience of the Samaras brand nationally. He also utilises his corporate experience gained in his board positions with various organisations and philanthropic associations.

GEORGE SAMARAS

DIRECTOR | WSH&E

With more than 31 years in the commercial construction industry, George brings extensive expertise and leadership to his role.

His journey began as a structural steel detail drafter, progressing to project management in South Australia. Recognizing the need for a specialized crane service, George founded Samaras Cranes and Machinery Relocation Division, which quickly became SA's leading crane hire company.

Since 2010, George has spearheaded the company's Work, Health, Safety, and Environmental Management systems, achieving ISO 45001 and ISO 14001 certifications—making the company a pioneer in its sector.

DANIEL FORGIONE

GENERAL MANAGER

Daniel has been with Samaras since 2008 and is currently the General Manager responsible for day to day operations of the projects and production divisions.

Further to this, Daniel has formal qualifications in mechanical engineering, has vast experience in construction management, and is currently undertaking an MBA degree.

Featured Project: Sydney Gateway

Featured Project: Monash Freeway

KEY CAPABILITIES

- ▶ Custom built 75,000m² facility
- ▶ Heavy & complex steel fabrication
- ▶ Digital & integrated quality assurance tracking
- ▶ Class leading automated cutting and drilling robots
- ▶ Fully enclosed & integrated surface treatment facility
- ▶ Dedicated & experienced project management team with high profile national experience
- ▶ International procurement and business experience
- ▶ Project management (on & off-site)
- ▶ Developments & building

LEADING EDGE TECHNOLOGY

- ▶ V325-300 Steel Plate Processing Machine
- ▶ Zeman SBA-Conti
- ▶ Kaltenbach KBS 1351 Beam Line
- ▶ CNC Pipe Coaster
- ▶ CNC Plate Cropper & Puncher
- ▶ Custom Beam Welding & Straightening Machine
- ▶ CNC Plasma Beam Notching/ Plate Cutting Robot
- ▶ 2 x Daito CNC Cutting & Drilling Beamlines
- ▶ Inline abrasive blasting booth (25m x 6m x 6m)
- ▶ Automated Wheel-a-Brator abrasive blasting line

MANUFACTURING CAPABILITIES

- ▶ Located in Gillman, South Australia
- ▶ Capacity to produce in excess of 480,000 fabrication man-hours per year.
- ▶ National Reach - 75% dispatched nationally
- ▶ Fully Integrated Systems including:
 - Strumis
 - Revit
 - Sigma-nest
 - Tekla
 - Cheops
 - Vacom
- ▶ Secure facility that has flexibility to be compartmentalised, including IT infrastructure

SURFACE TREATMENT

Samaras' expertise, capabilities and experience ranges from the simplest primer base-coat right through to highly complex finishes and treatments, such as:

- Multi-coat architectural finishes
- High-Build Epoxy Systems
- Highly complex intumescent systems
- Experience with AESS specifications

INTERNATIONAL PROCUREMENT

Samaras Structural Engineers has developed a supply chain of international steel merchants and fabricators with proven track records for quality material supply and fabrication of steelwork.

Systems are in place to manage the complete procurement process including supplying of shop detailed drawings, ordering of compliant material, fabrication, independent inspection and testing and logistics to meet your project requirements.

All materials are independently tested with an ILAC (or equivalent) testing body to ensure full compliance with the most stringent project standards.

Samaras is vigilant that the quality standards and conformance criteria are vastly different depending on region, as such we employ our own dedicated staff to manage and fabrication of the work whilst also partnering with independent inspection companies that provide additional surety to us and our clients.

Our Quality Management System is accredited to ISO 9001 along with our WHS & Environmental corresponding accreditations and as such work only with other international companies who have also had similar relevant accreditation.

Samaras has a dedicated team for international procurement of materials including fully fabricated structural steel and manages the entire process of due diligence, material logistics, insurances and quality certifications.
